Learn How Managing Sequence of Returns Risk with Home Equity Can Help Preserve and Grow Your Clients' Retirement Assets

Home equity should be a strategic component of a comprehensive retirement plan.

An impactful study published in the Journal of Financial Planning has led to a sequence of returns withdrawal strategy that will:

1. Help clients take control of their retirement journey.
2. Dramatically improve retirement plan success rates.
3. Help preserve and grow your clients' retirement assets... even if they are taking systematic income distributions.
